## Projects

**Mentor Dashboard** / MERN stack, React Vite, Tailwind CSS

February 2025 – February 2025

- Developed five dashboard pages (Profile, Bookings, Services, Payments, Availability) for Shiksha Sathi, ensuring a seamless user experience.
- Integrated MongoDB for user authentication, individual user data storage, real-time updates and advanced database management.
- Designed the UI using Figma, then implemented it with React Vite and Tailwind CSS, optimizing responsiveness and performance.
- Fetched user form data dynamically, displayed details on the dashboard and integrated RESTful APIs for authentication and data management.
- Utilized GitHub for version control, ensuring smooth collaboration and scalable architecture.

**Furniture Website** / React.js & JavaScript, *Responsive Web Design*

October 2024 - November 2024

- Developed an e-commerce platform for home and interior furniture maintenance for CMB Space's Avan Seatings Company, ensuring seamless product browsing and purchasing.
- Integrated MongoDB for user authentication, individual user data storage, and advanced database management.
- Applied React.js knowledge to create a fully functional and scalable front-end application.

**GitHub Repository Link:** <https://github.com/easyints05/Avan-interiors>

## Summer Training

**Full Stack Web Development**

June 2024 – July 2024

*Techvanto Academy*

- Contributed to the development of Solace, a web application for eco-friendly furniture, as part of a 6-week live internship in Full-Stack Web Development.
- Designed and implemented both frontend and backend, ensuring a seamless user experience and robust functionality.
- Developed a creative UI/UX design for the front end, enhancing visual appeal and user engagement.
- Utilized MongoDB for efficient user data storage, ensuring scalability and security.
- Built the application using HTML, CSS, and Node.js, integrating dynamic features for an interactive and responsive interface.

## Certifications & Certificates

Fundamentals of UI/UX | Coursera

February 2025

Responsible & Safe AI Systems | NPTEL

November 2024

Front-end Development using React | Broad Infinity

July 2024

Full Stack Web Development | Techvanto Academy

June 2024

Mastering Data Structures and Algorithms using C and C++

February 2024

## Technical Skills

**Languages:** C++, Java, HTML, CSS, JavaScript, Python

**Tools / Platforms :** Figma, Canva

**Technologies/Frameworks:** React.js, Node.js, Express.js, MongoDB, MYSQL

**Skills:** Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Communication skills, Adaptability

## Achievements

Completed 160 days DSA challenge in GeeksForGeeks and gained a Certificate

Designed the Front-end part and UI/UX for the Dharavi Diary NGO website and received an appreciation Certificate

Runner-Up in EDREV Poster-Making Competition (LPU)

## Education

**Lovely Professional University Punjab**

Since August 2022 – Present

Computer Science and Engineering (6.79)

Phagwara, Punjab

**Sri Viswa Junior College**

2020 – 2022

12th with Science ( 85.6% )

Visakhapatnam, Andhra Pradesh

**Amar Concept School**

2019– 2019

10th with Science (90% )

Visakhapatnam, Andhra Pradesh
